Practice Mode

Your clinical system needs to be running and Vision Plus or Bluebay CT (EMIS systems) needs to be in Practice mode in order to download the template. This only has to be carried out once. As users log onto the system the downloaded template will become available to them.

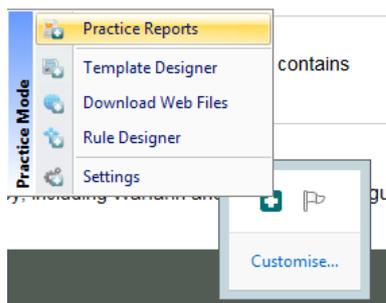

If your Clinical System is currently running but you are not in a patient's clinical notes then **Practice Mode** is automatically selected, indicated by a blue bar. Functions available in this mode are generally administration functions that affect the whole practice.

Practice Mode can be accessed by **Right Mouse** clicking on the Vision Plus icon (Or the Bluebay white Light bulb for EMIS) in the notification area located at the bottom right of the Start bar:

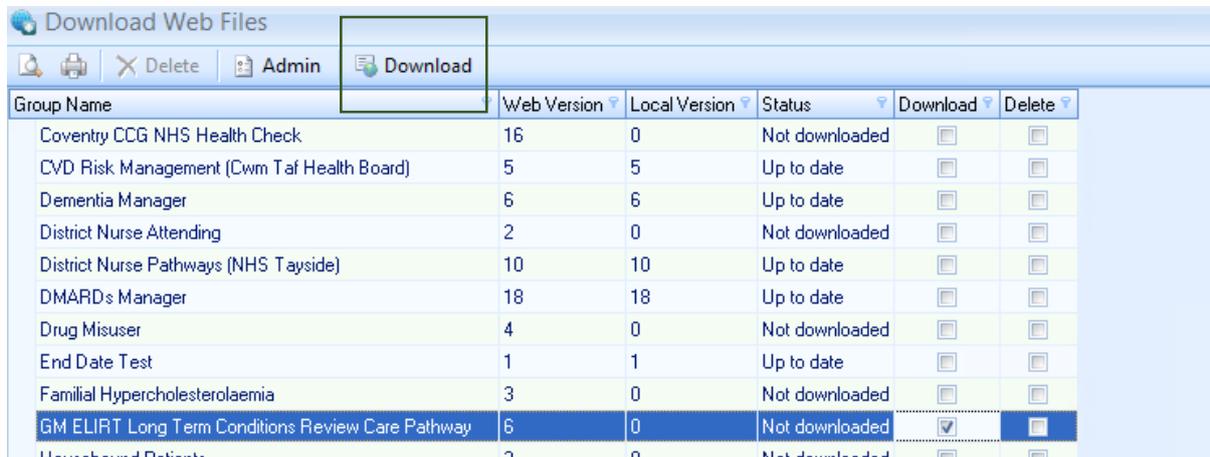

This will display the **Practice Mode** menu:

1. In **Practice Mode**, select **Download Web Files**. The list of web files will then display
2. Select the **GM ELIRT Long Term Conditions Review Care Pathway**
 - a. The **Status** column will display **1 of 3 messages**
 - i. **Not downloaded** - For new practices
 - ii. **Up to date** - For practices who have the latest version
 - iii. **Updated – Please download** – For practices who have an older version
3. Click and place a Tick in the **Download** column next to the template ready for download.
