

PDSA Worksheet

Key building block: Creating a Foundation Identifying Patients Optimal patient management Ensuring Sustainability

Objective of test:

Plan	What will you do to achieve your objective?	Who will lead this test?	How will you measure success?
		What is your timescale?	

Do	What was the effect of running the test? E.g. How many patients have you diagnosed/coded as a result?	What were the challenges you faced and the benefits to your practice of the outcome?

Study	What did the measures show against your expectations?	Act	What will you do next? Adopt, adapt, abandon?

Any other comments:
